..... convention, call for, 6.
....., account of, 52, 57, 67, 71.
....., in Onondaga County, proceedings of, 36.
..... society of Kennebec, report of, 39.
....., Massachusetts, report of, 55.
....., N. Y. state, proceedings of, 71.
....., of Scotland, 78, 401.
..... of Niagara County, 107.
....., American, proposition for, 185.
....., English, 259.
....., of Edgar Co. Illinois, 302.
....., of Seneca Co., 333.
....., of Marcellus, 404.
..... societies, suggestions respecting, 102, 117, 208.
..... and cattle shows, history of, 356.
..... improvements in Scotland, 7.
..... recommended, 280, 307.
..... law of 1819, 8.
..... surveys in England, great advantages of, 8.
..... of Massachusetts, interesting anecdote, 336.
..... prospects of the Great West, 41.
..... committee of N. Y. state legislature, 43.
..... report of, 52, 57, 60, 61, 83.
..... school, Russian, 64.
..... of Hofwyl, 296.
....., 284.
..... report of H. Colman, 122, 154.
..... of Worcester on swine, 379.
..... and medical education, 164.
..... resources of United States, 201.
..... charlatanism, 202.
..... exhibition, 213.
..... exhibitions, splendid, 367, 370.
..... fair at Northampton, 341.
..... at Skaneateles, 357, 396.
..... Chemistry, principles of, 278, 404.
..... intelligence, 414.
Agriculture, importance of diffusing intelligence respecting, 4, 367.
....., advantages of the pursuit of, 12, 166, 335.
....., pleasures of, 53.
....., dignity of, 144.
....., why not appreciated, 140.
....., progress of, 187.
....., neglect of, 197.
....., patronage of, 375.
....., benefactors of, 63.
....., opinions of the ancients on, 218.
....., science of, 277.
....., ... essential to, 294.
....., and Horticulture, connexion of with other sciences, 326.
..... in Japan, 303.
..... in western N. Y., observations on, 15, 23, 30.
....., legislative aid to, 10, 13, 57, 68, 84, 398.
..... in France, 38, 350.
..... the Deccan, 78.
..... Long Island, 269.
..... in Maine, encouragement to, 283.
..... Dumfries-shire, 318.
..... Egypt, 362.
..... Kentucky, 352.
..... Canada, 370.
..... of the Wabash Valley, new work on, 396.
..... England and United States, effect of natural causes on, 177.
..... plan of an experimental farm, 17.
Alluvion, account of, 209.
American Farmer, notice of, 39.
..... Cottage Gardening, 243.
..... Institute, eleventh annual fair of, 263.
Appetite, astonishing, 200.
Apple, the Jonathan, notice of, 370.
..... pomace, 372.
Apples without blossoms, humbug account of, 78.
....., culture, varieties and diseases of, 81.
....., important hints on drying, 92.
....., remarks on, 101.
...., better fed to hogs than made to cider, 327.
....., value of, 410.
Apricot, culture, varieties, and diseases of, 327.
Artesian wells, inquiry, 73.
Artichoke, remarks, 125.
Ashes as manure, 237, 383.
..... successful experiment in using, 222.
Asparagus, directions for the culture of, 31.

B.

Barley, account of varieties and modes of culture, 73.
Barn cellars, made with reference to collecting manures, 224.
Barns, improvement in, 159.
Barren lands, remarks on, 33.
Bass matting, to prepare, 187.
Beans, to harvest, 295.
..... to cure, 295.
Bears, breeding of, 259.
Beef, pickle for, 37.
Bee moth, account of, 202.
... hive, Vermont, 374.
Bees, winter management of, 48, 366.
...., spring management of, 150.
...., wintered in a cellar, 151.
...., to avoid the moth, 152.
..., swarming, 191.
.... recommended, 303.
..., management of, 339.
...., experiments on, 390.
Beet, sugar, directions for raising, 119.
...., ..., important fact respecting, 152.
....., ..., with corn, 196.
...., ..., excellent for cows, 159.
...., ... hogs, 198.
...., ..., letter from D. L. Child, 300.
Beet sugar, directions for making, 35, 93, 169, 396, 411.
....., made in Connecticut, 49.
....., manufacture of at Newburyport, 343.
..... Northampton, 371.
....., success in the manufacture of, 134.
..... report of D. L. Child, 134.
....., important discovery in making, 158.
....., advantages of the manufacture of, 159.
....., account of manufacture in France, 176, 331.
..... increased attention to, 184.
..... in Michigan, 188, 376.
Beet seed, preparing, 146.
Beets, culture of, 146.
Bird, curious change in, 128.
...., singular, 268.
Birds fly with the wind, 129.
...., usefulness of, 226.
Black Worm, remedy for, 254.
Blanching garden vegetables, modes and advantages of, 133.
Bloody murrain, to prevent, 91.
Bone manure, remarks on, 34, 64.
....., experiments with, 64.
....., utility of, 174, 326.
Book farming, 245.
Books for the Farmer, 362.
....., preserving, 78.
Boots and shoes, composition for, 86, 402.
Botany, study of, 303.
Bots in horses, to prevent, 199.
Bottom lands in Ohio, 244.
Bounty on wheat and corn, 58, 120, 283.
Buckwheat, Indian, (or Indian wheat,) account of the culture of, 46, 47, 327.
....., remarks on, 123, 366.
Buckwheat cakes, suggestion, 260.
Buildings should be insured, 228, 275.
....., utility and hints on painting, 319.
Burlesque on English blunders, 220.
Bushes, to destroy, 254.
Butchering, rapid, 128.
Butcher's trade in Paris, 64.
Butter made in winter by freezing milk, 29.
....., quantity cons m d in London, 78.
....., errors in making, 171.
....., information wanted, 181.
....., important hints from purchasers on packing, &c,. 184.
....., to make good in August, 295.
....., to salt, 351.
....., directions for making, 382.

C.

Cabbage of thirty-four pounds, 78.
Calf, big, 364.
Calves, management of, 20.
....., kept in winter among sheep, 42.
....., cure for scouring in, 143.
....., enormous, 207.
Canada thistles in roads, 29.
....., to destroy, 303.
Carrots recommended for horses, 32.
....., Culture of, 146.
Cart plough, 63.
Caterpillars on shrubbery, to destroy, 128.
Cattle, feeding and fattening, 31.
....., directions for manger feeding, on straw, roots, &c., 2.
....., watering in winter, 56.
....., shelter for needed in winter, 63.
....., principles of breeding, 110, 183, 239, 313.
....., stall feeding experiments, 181.
....., soiling, advantages of, 293, 354.
..... should be cleaned, 343.
....., directions for winter feeding, 367.
..... breeders, hint to, 254
....., remarks on crossing, 231.
....., long horns, with remarks on breeds, and experiments on fattening, 234.
....., Durham, why high priced, 95.
....., in Ohio, 107.
....., high prices and great profits of, 114.
....., figures and account of, 130.
....., sale of T. Weddle's, 138.
....., great sales in Ohio, 220, 319.
..... Kentucky, 384.
....., sale in Kentucky, 416.
....., Durhams and Scrubs, comparative value of, 111.
....., Devon, 193.
....., Ayrshire and Galloway, 281.
..... show, Berkshire, 351.
..... and fair in Otsego, 414.
....., and sheep, notice of imported, 3.
....., report of N. Y. State Ag. Soc. on, 104.
....., raising, too much neglected, 260.
..... feed in Wisconsin, 287.
....., large heifer, 338.
....., remedy for hollow horn in, 48.
..... for rot in, to cure, 25, 75.
....., to prevent bloody murrain in, 91.
....., choked, instruments for relieving, 114.
....., to cure horn ail in, 173.
....., hoven in, a remedy for, 240.
....., disease in prevented by tar, 271.
....., vomiting in, 353
....., hoof ail in, see *Hoof Ail.*
Caution to readers, 394.
Celery, culture of, 14.
Cellars, care of, 302.
Cement for China and earthen, 93.
....., asphaltic, 257
Cheese, directions for making, 61.
....., important hints from purchasers, 184.
..... maggots repelled by pyoligneous acid, 260.
Cherry, varieties, culture, and rdiseases of, 129.
Chesnut, transplanting, 275
..... timber, cultivation recommended, 13.
Choked cattle, instruments for relieving, figures and descriptions of, 114.
Cider, to prevent souring, 256.
....., to make, 294, 299, 317, 367.
Clay on light soils, benefits of, 32.
Clouds, descr ption of, 282.
Clover seed, directions for sowing and cleaning, 10.
....., advangtages of raising, 204.
....., Russian, noticed, 34.
....., best varieties, 58.
....., cultivation and management of, 216.
....., hay, curing, 247.
....., benefits of straw as a top dressing for, 295.
Coal mines in Greece, 339.
Cobble stone walls, inquiry and remarks, 13.
....., durability and cheapness of, 69.
Colleges, how to improve, 395.
Common sense, 32.
..... schools, 40.
Congratulations, 84.
Cookery; to make soda bread, 64.
.....; to make corn biscuit and muffins, 110.
.....; to make cider cake, 127.
.....; to make potato bread, 135.
.....; to make Indian pudding, 196.
.....; general directions in making puddings, 204.
.....; to make bread and butter puddings, 204.
.....; to make tomato pies, 287.
.....; to make corn puddings, 300.
.....; to make Graham wafers, 347.
.....; to make sweet crackers, 347.
.....; to make pumpkin pies, 347.
.....; to make potato cheese, 384.

Cookery; to make apple butter, 387.
....., ; to make Indian apple pudding, Johnny cake, and corn pudding, 396.
Cooking stoves, to prevent steam from, 7.
Corn, Dutton, failure of, 27, 106, 397.
...., ..., spurious seed, 152, 348.
...., ..., success of, 231.
...., account of varieties and culture of, 363.
...., productive stalk, 392, 399.
....., twenty rowed Virginian, 397.
...., California, 399.
...., red blaze recommended, 58, 97.
....., early varieties of, 97, 179, 268.
...., Chinese, notice of, 323.
...., other varieties, recommended, 27, 43.
...., method of culture of, 28, 43, 134.
....., successful culture of, 42.
...., worms repelled by saltpetre, 55.
...., distances in planting, 91.
...., great crop of, 133, 134, 175.
...., benefits of replanting, 133.
.... and potatoes, mixed crop of, 152.
...., to be kept clear of weeds, 191.
...., substitute for scare crows, 196.
...., directions for hoeing, 222.
....., disease in, 223.
.... sheller, figure and description of, 235.
...., harvesting, 239.
...., suckering, 240.
...., remarks on topping, suckering, and harvesting, 247
...., crops, advantage of, 414.
...., Indian, or native of America, 257.
...., expense of cultivating in Mass., 285.
...., experiments in sowing broadcast, 287.
...., seed, directions for selecting, 298, 299.
...., prospect of crops, 299, 300
.... soaked in copperas, 327.
...., produce of two seeds, 331.
.... stalks should be all saved, 336.
...., large ear, 360.
Cotton crop of United States, 78.
Cow, good, 70, 356.
....., singular, 391.
Cows, lifting, 78.
...., good, 115, 175, 188, 241.
...., working, 126.
...., great profits of, 152.
...., prolific, 284.
...., calculations on profits of, 251.
...., to cure warts on udder of, 387.
Cranberries, to preserve, 287.
Crops, interesting calculations respecting, 39.
....., large, 154.
..... in Maryland, 187.
..... Virginia, 240.
..... Michigan, 244.
..... Onondaga county, 257.
..... Ohio, 270.
..... Kentucky, 270.
..... Massachusetts, 276, 341.
..... East Bloomfield, 299.
..... Missouri, 351.
..... and season in Berkshire, 388.
...., general prospects of, 241, 253, 318.
...., remarks on, 223.
..... short, remedy for, 352.
"Cultivator," notice of, 153.
.... or horsehoe, figure and description of, 196.
Cucumber, long, 351.
Cucumbers protected from insects by glass, 199.
Curculio destroyed by chickens, 186, 318.
....., to destroy, 203.
....., remedy against, 231.
Currant, culture of, 233.
..... wine, to make, 234.
Currants, to preserve, 180.

D.

Dahlias, culture of, 127.
Dairy, plan of, 165.
..... husbandry, suggestions, 284.
..... management in Scotland, 399.
Dandelion for sallad, 190.
Ditching and banking machine, 175.
Dogs and cats, music of, 54.
Domestic economy;—
to restore tainted meat, 120.
to clear premises of mice and rats, 120.
to preserve nails from rusting, 128.
composition for boots and shoes, 86, 402.
to preserve currants, 180.
to make yeast, 204.
directions for making soap, 287.
to preserve fruit for pies, 287.
under beds, 312.
to save scraps of bread, 347.
various items, 402.
Draining, practical effects of, 288.
...., uplands, utility of, 43, 242, 315.
Draining, necessity of, 179.
....., by steam, 259, 315.
..... to be remunerative, must be done effectually, 251.
Drill culture, 203.
...., turnep, see *Turnep*.
Drouth of August and September, 346.
Dry rot, 162, 345.
Ducks destroyed by insects, 225.
Dwelling houses, situation and plan of, 415.

E.

Editorial aid to the Genesee Farmer, 1, 21.
Education, necessity of, 231.
....., new system of, 271.
Eggs and poultry, directions for managing, 331.
Evergreens, transplanting, 275.
..... in summer, 270.
Example, good, 276.
Exploring tour beyond the Rocky mountains, 258.

F.

Fallows, naked, remarks on, 222.
....., advantages of, 271.
Farm, experimental, plan of, 17.
....., French, 59.
....., reports of Essex co., 190.
....., stock, improvement in, 196.
....., old and new, which best, 294.
..... to subdivide properly, 387.
....., report, visit to B. V. French, 345.
....., full description of the management of the Home Farm in England, 229, 338.
Farmers, suggestions to, 102, 374, 404.
....., or, "is every thing right?" 153.
....., prospects of, 197.
....., important considerations for, 241.
....., winter reading for, 374.
Farmer's house and family, description, 293.
..... work for winter, 355, 361.
..... Guide, remarks on new theory advanced in, 365.
Farming, to make profitable, 3.
..... in Seneca county, remarks on, and inquiries, 21.
..... implements, remarks on, 38, 192.
...., American, 355.
....., general hints on, 158, 79, 197, 239.
....., change to be avoided in, 154.
....., importance of exact measuring in, 159.
....., great mistakes in, 170.
....., improved implements for, 171.
....., experiment showing enormous profits, 192.
....., different systems of, 198.
....., interesting and successful experiments, 239.
....., capital in, kinds and effects of, 248.
....., good and bad, 259.
....., implements, figures and descriptions of, 266.
....., in New York, 317, 365.
..... Flanders, 310.
..... Ohio, extensive and profitable, 107.
..... Connecticut, 49.
..... Indiana, 49.
....., by the Shakers at Canterbury, 215.
....., skillful, visit to D. Bradley, 259.
Farms, size of, 290.
Female industry, remarks on, 30.
Fence making, description of a new mode, 284.
..... posts, preserving, 13.
Fences, improved method of staking, 21.
Filberts, cause of sterility in, 203.
Flax, culture, experiment, 47.
...., improvements, estimates, and expenses of manufacture of, 315.
...., improvements in manufacture of, 335, 371.
... , seed for horses, 115.
....., meal, great value of, 263.
Flint in wheat straw, 27.
Flour, quantity in Virginia, 35.
